Dear Andy:

This will reply to your letter of 30 November 1950 reference the reclassification of positions for [REDACTED] and possibly [REDACTED].

I shall discuss these in detail with you when you arrive later this month but for the moment I would like to say that [REDACTED] is precisely the individual with whom our informal discussion reference reclassification of [REDACTED] was held. At the time he was Chief of the Personnel Division. Now he is back in Classification again.

We also recently submitted a formal request asking for reclassification of the Administrative Assistant's position at the [REDACTED], advising the Personnel Division that if this was approved we should also like to have the one at [REDACTED] reclassified. The Administrative Assistant at the [REDACTED] is extremely competent and very deserving. He has no clerk-typist to assist him nor does he have as much custodial help as you do at the [REDACTED]. I believe that the duties involved are comparable. Our request was denied and [REDACTED] final word was that he thought both the positions at the [REDACTED] should remain at GS-6.

If you care to, I shall be glad to have you discuss this with [REDACTED] when you are here and if he is sympathetic I of course will be only too happy.

Sincerely,
